Explosion and Fire in Times
Case Not Necessarily of
Human Agency

FRISCO'S POLICE HEAD
CONFERES WITH TVEITMOE

Each Refuses to Divulge Result
—Detective Brown Tries to
Elude Reporters

LOS ANGELES, Oct. 25.—The special grand jury summoned by Judge Bordwell to investigate the Times disaster met today. The empaneling of the jury was delayed by the difficulty the deputies have experienced in finding all the veniremen. Of the thirty citizens summoned, nineteen will be selected to hear the evidence to be presented by the district attorney. Neither the district attorney nor Earl Rogers, in charge of the investigation for the Merchants & Manufacturers' Association, at whose instance the grand jury was called, will state for whom indictments are to be sought. When the session was called to order only twenty-four of the veniremen were present. It was announced that five are out of the state, and could not be reached with a summons. One man is en route.

Just nineteen men, the required number, were found acceptable. Judge Bordwell read his instructions to the jury, of which the keynote follows: "You are not to assume that the explosion and fire in the Times building was the work of human agency, but determine that question from evidence that is obtainable."

Charles Wier of Los Angeles, was made foreman, and the jury taken apart for a complete formal organization. Earl Rogers, District Attorney Frederick and Deputy District Attorney McComas were present. Judge Bordwell addressed the veniremen, calling attention to the importance of the matter about to be considered, and asked that veniremen advance no trivial excuses to escape service.

CHIEF SEYMOUR AND TVEITMOE IN CONFERENCE
SAN FRANCISCO, Oct. 25.—Olaf Tveitmoe, the labor leader, arrived from Santa Cruz this afternoon and went in conference with Chief of Police Seymour in regard to the Times dynamiting in Los Angeles. The conference continued until late this afternoon, both refusing to tell its result.

Detective Brown of Los Angeles today moved headquarters from the St. Francis Hotel, hoping to avoid the reporters who have been on his trail in hopes of learning on whom he will serve subpoenas to appear before the grand jury in Los Angeles. He was discovered almost immediately at the Hotel Herbert, where he locked himself in to elude newspapermen.

TVEITMOE ASKED TO TELL
WHAT HE KNOWS OF "SMITHY"

SAN FRANCISCO, Oct. 25.—Chief of Police Seymour today called upon Olaf A. Tveitmoe, secretary of the State Building Trades Council, to make a statement that he knows of the men wanted in connection with the Times dynamiting. Tveitmoe was requested to call at the chief's office immediately when he returns from Santa Cruz, where he has been resting.

It is alleged that Tveitmoe is intimately acquainted with "Smithy," whose arrest the police are seeking.

TO OUST FOREIGNERS

Also Proposes to Eliminate
"Carpet Baggers" From
New State

PHOENIX, Oct. 25.—Two propositions were advanced by the labor delegates today, aimed at Slavonian and other foreign miners in Gila and Cochise counties.

The first provided that all men employed underground must be able to read and write English. The second is designed to compel all mine owners to make affidavit that eighty per cent of the men employed in each of their mines are Americans.

Delegate Kinney forestalled "carpet bagging" in the new state by proposing a scheme compelling all candidates for the United States Senate to be residents of Arizona for five years.

Barry. The largest of the two measured nine feet two inches from tip to tip and weighed 153 pounds, while the other weighed 108 pounds and was seven feet five inches long.

MONSTER DEMONSTRATION WILL
GREET JOHNSON THURSDAY NEXT

Thursday evening will witness the biggest political demonstration of the campaign in this county. At a meeting of a large number of local Republicans last night at the central committee's headquarters in the Rowley block arrangements were made for providing a parade of an unique and stirring nature.

Hiram W. Johnson, candidate on the Republican ticket for governor, will arrive in Santa Ana Thursday evening and Santa Ana will give the sterling leader a reception such as will show the confidence the people have in the man and the cause which he represents as leader and candidate.

A number of the details of Thursday evening's program were arranged at the informal meeting last night, which was called by State Central Committeemen E. E. Keech of Santa Ana and Lew H. Wallace of Newport Beach, and by Dr. C. D. Ball, representing the county central committee. It was decided that the meeting should be called to order by E. E. Keech, and that J. P. Baumgartner, editor of the Register, should preside.

An automobile parade is to occur about 7:15 o'clock. A committee consisting of S. J. Jackman and John Beatty was appointed to secure automobile volunteers for that demon-

stration. Every automobile will be decorated with the Stars and Stripes, and each machine will be filled with men and women who believe in the doctrines for which Johnson has fought and will continue to fight. Johnson's drum corps, which is accompanying him on his tour, will lead the parade, and another drum corps will be secured to take part in the monster demonstration.

This parade will take its way through the business and residence sections, and there will be "something doing" every foot of the way.

Red fire will light the streets. A band will hold forth in the street in front of Spurgeon's Hall, where the meeting will be held.

A list of vice-presidents to sit upon the platform with Johnson has been prepared. On that list are R. Y. Williams, N. A. Uim, A. J. Crookshank, L. L. Shaw, W. L. Tubbs, C. W. McNaught, A. J. Aeronauts Start From St. Louis
to Make Balloon Search
for Missing Men

MONTREAL, Oct. 25.—Hope for the safety of Pilots Allan Hawley and Augustus Post of the balloon "America Second," which has been lost for more than a week, was partly abandoned today when hunters from the Kippewa district, arriving today, reported seeing a balloon on Wednesday in that section.

The Kippewa country is rugged and covered with forest and it is improbable that the balloonists are alive if they landed there. The hunters are positive that the balloon they saw was the "America Second."

HOPE ABANDONED AFTER UNSUCCESSFUL SEARCH
CHAPLEAU, Ont., Oct. 25.—Louis Spindler, representing the Aero Club of America, arrived today to superintend the search for the lost pilots of the balloon "America Second." Searchers were out all night in this vicinity, but were unsuccessful. Hope of their rescue has been abandoned here.

ST. LOUIS, Oct. 25.—Aeronauts Von Paul and O'Reilly, started for Chapleau, Ontario, today taking with them the balloon St. Louis Third. They will ascend from Chapleau to search for the missing balloonists.

DESOLATION
OVER ITALY

Provinces Wasted by Eruption
and Tidal Wave That Followed in Wake

NAPLES, Oct. 25.—Ravaged by earthquake, volcanic fire and flood, the provinces of Naples and Salerno today present scenes of desolation and suffering. An official review of the situation shows that the fatalities of yesterday's eruption of Vesuvius, with its attendant tidal waves, were enormous.

Government officials are on the scene today arranging for state aid for the sufferers. Salerno, Amalfi and Cetera suffered millions in damages.

Scientists at the Vesuvius observatory have announced that the climax of the eruption has passed.

CALIFORNIA GETS
GILT EDGE PRICE
FOR HER LEMONS

NEW YORK, Oct. 25.—California lemons have jumped 10 cents in the past ten days and will go 10 more, to 50 cents a dozen, prophesy the dealers, for next week.

Not in years has the humble lemon been so sought for.

Italian cholera is the cause. There are plenty of lemons in Naples, but the liners have ceased to call there, waiting an abatement of the plague. Consequently the American lemon comes high.

OLDFIELD IS NEW
HOPE OF WHITE RACE

Wins Two Straight Heats in
Auto Race With Jack Johnson,
the Heavyweight

SHEEPSHEAD BAY, Oct. 25.—Barney Oldfield proved to be the new "hope of the white race" today, when he defeated Jack Johnson in two straight heats in their five thousand dollar stake match auto race. Oldfield won the first heat in four minutes and forty-four seconds, Johnson failing to finish. The second heat was negotiated by Oldfield in four minutes and fourteen and one-half seconds, the victor visibly slowing up to permit Johnson to finish within a respectable distance.

After the race Johnson good naturedly challenged Oldfield to fight ten rounds, and give him a chance to redeem his losses. Oldfield declined, saying he preferred to risk his life on the track instead of in the ring.

Johnston Disappeared From
Sight at 5000 Feet in Altitude Contest

BELMONT PARK, N. Y., Oct. 25.—The new Wright racing aeroplane, on which America's hopes in the international speed contest are centered, rose from the hangar this afternoon with Orville Wright at the wheel. A little bigger than a torpedo, the craft darted at perilous angles among other air crafts, traveling better than a mile a minute. On the back stretch Wright let out the motor and passed the other aviators as though they were standing still. He was accorded an ovation when he alighted.

PEOPLE CROWD TO SEE
EVENTS IN THE AIR

BELMONT PARK, N. Y., Oct. 25.—The crowds gathered early for the second day's events in the international aviation meet. Several added events increased the interest in today's program. It was announced that Orville Wright will personally fly the new Wright racer in the international speed contest Saturday. The racer is on exhibition in the hangar. It is only twenty feet long and three feet wide. The engine is V shaped with eight cylinders. Several aviators appeared this morning for tuning up spins. The weather is ideal.

BERLIN, Oct. 25.—Lieutenant Menthe of the German army was killed today, falling in a Wright aeroplane at Magdeburg. He was a member of the army aviation corps, and was maneuvering when the accident occurred.

LOS ANGELES, Oct. 25.—Frederick C. Emery, 27 years of age and a machinist, was shot through the heart and instantly killed last evening while endeavoring to take a revolver from his wife, with which, it is said, she intended to commit suicide. It is believed the killing of Emery was accidental, the weapon being discharged during the struggle for possession of it. The tragedy occurred in apartments occupied by the couple at 134 South Olive street.

Probably "Huffy" Over President's Attitude in State Convention Row

WASHINGTON, Oct. 25.—Vice President Sherman, passing through Washington enroute to South Carolina, called at the War and Navy department but failed to pay his respects to President Taft.

Gossip was immediately released. Many believe that Sherman purposely avoided the "portly presence" at the White House because of the recent reported differences with the president at the time of the fight for the temporary chairmanship of the New York Republican convention.

Bruce Miller Journeys From
America to Defend Mrs.
Crippen's Name

LONDON, Oct. 25.—With a suddenness as surprising as the verdict itself, Ethel Claire Leneve, the companion of Dr. Hawley Crippen in his flight following the murder of his wife, was acquitted on a charge of being an accessory to the murder, in Old Bailey court today.

In view of Crippen's sentence, the verdict created great surprise, as it was generally believed the girl would get a long prison sentence. The jury brought in a verdict after nineteen minutes' deliberation.

The courtroom was filled with prominent women when the case was called. The girl sat listless, apparently not realizing the significance of Prosecutor Muir's charges.

Several witnesses were examined briefly, the Crown apparently not attempting to produce any damaging evidence. Miss Leneve was not called to the stand. Justice Alverstone's charge to the jury foreshadowed the verdict.

The girl alternately wept and laughed hysterically when freed.

BRUCE MILLER DEFENDS
NAME OF DEAD WOMAN

LONDON, Oct. 25.—Bruce Miller of Chicago, today told of his relations with Mrs. Crippen, replying to the charges Dr. Crippen made on the witness stand when he alleged the woman left his home to join Miller in America.

"My relations with Mrs. Crippen were always proper," Miller said. "I'll admit I kissed her once or twice, but that was in jest. I knew that while jolly and fun-loving, she stood on high moral ground, trusting her husband and expecting to be trusted herself. Crippen knew of our platonic friendship. I came to England to vindicate the character of a woman no longer here to speak for herself. I bear Crippen no grudge for using my name. It was like a drowning man clutching at a straw."

CEMENT COMPANY'S
BIG EXPENDITURE

Will Put Vast Sum Into Increasing Capacity of Riverside Plant

RIVERSIDE, Oct. 25.—To keep pace with its contracts, the Riverside Portland Cement Company is to increase the capacity of its plant soon by additions which will represent an expenditure of about \$400,000. At present the capacity is about 3000 barrels daily. This will be increased to 4500 barrels. It is expected that the additions will be completed by May, 1911.

Four new kilns will be installed, and the number of ball mills will be doubled. These will come from the Krupp Steel Works, Germany. Ten tube mills and additional elevators, conveyors and other machinery will be installed, and the cement storage house will be doubled in size.

This additional equipment will necessitate a large increase in the number of men employed. The present force is 500 men, and the monthly payroll is about \$30,000. A number of new inventions will be introduced, among them a modification of the Cottrell process of abating the dust nuisance.

SURVEYS ARE MADE FOR
INTERNATIONAL FENCE

EL PASO, Tex., Oct. 25.—A fence along the border between Mexico and the United States seems assured. Surveyors are now in the field and are said to be running lines for the construction of a barbed-wire fence. This is intended principally to keep the cattle of each country from wandering over the line, rather than to stop smuggling, as has been reported.

PRODUCTION INCREASING

Wells in the Fullerton-Olinda-Brea Canyon Fields Grow In Number

Los Angeles Times: In the Fullerton-Olinda-Brea Canyon district the tendency is to get better all of the time. The Fullerton Oil Company reports two wells completed, one at 3217 feet and the other at 3515 feet, with a good production. This company has a production of 50,000 barrels a month. The Orange Oil Company has one well producing an average of 921 barrels a month for three months, and Graham & Loftus have a production of 33,800 barrels a month from thirty-two wells. The Columbia has four drilling and

eighteen producing 47,000 barrels a month.

The Industrial Oil Company is running nine strings of tools and has twenty-eight wells producing 65,000 barrels of oil a month. The Union is a big producer in the field, securing 84,000 barrels a month from twenty-nine wells. The same conditions are true of other companies.

DISASTROUS END TO STAGE ROMANCE

Harry Rheinstrom in Asylum and Edna Loftus Having Delirium Tremens

SAN FRANCISCO, Oct. 25.—Harry A. Rheinstrom was committed to the Stockton Insane Asylum for treatment by Judge Waste in Oakland yesterday. Without exception the witnesses attributed the young man's condition in a great extent to the society of his wife. All of them advocated his immediate separation from her, and the recital of her confinement in a San Francisco hospital on the verge of delirium tremens undoubtedly entered into the consideration of the case by the examining physicians.

A CARD TRICK.

The Sequel to a Challenge to a Duel in a Berlin Cafe.

"Sir?"
"Well?"
"You have been staring at me?"
"Not that I am aware of."
The young gentleman, evidently a student, was about to retire with an apology when the person addressed—a banker—thought proper to add:
"You are altogether too insignificant an individual for me to stare at you."
"Sir, that is an insult; I shall challenge you. Here is my card."
After a moment's hesitation the banker also gave up his card. The cards were inscribed as follows:
"Count Botho von Feising, student of philosophy."
"Ernst Grunschuld, banker."

The scene occurred in a Berlin cafe, and the count at once took his departure. After his excitement had somewhat abated and he had had time to collect his thoughts Herr Grunschuld also left. Fearing lest his better half might suspect something from his looks, he went straight to his place of business and began to write letters to his friends containing the customary last farewell greetings in case he should fall a prey to a "vindictive and quarrelsome opponent." It was 7 p. m., and the cashier called, as usual, to present his report. Grunschuld ran his eye listlessly over the balance sheet. Suddenly he gave a start.

"A thousand marks drawn for private use! What does this mean? Come, this is above a joke!"

"Have you forgotten, Herr Grunschuld? You were playing at the cafe, you know, and lost a thousand marks, and as you hadn't that amount on you Count von Feising was good enough to call for the money on his way. He showed me your visiting card in proof of his statement."

Grunschuld hardly knew whether he should go into a fit with vexation or whether he should shout for joy. He had been done out of a thousand marks, but at the same time it was "off" with the duel. When he afterward learned that the imaginary student was a professional swindler he was thankful to have got off so cheaply.

FLAG ETIQUETTE.

Displaying the National Ensign at Half Mast.

There have been many mistakes made about the etiquette of the flag. When President William McKinley was assassinated thousands of loyal Americans raised flags at half mast over their places of business and let them fly by night and by day until they wore out. They undoubtedly thought they were showing respect to McKinley's memory. But they were not showing proper respect to the flag. The United States government displayed at that time its flags at half mast from sunrise to sunset from the president's death until his burial. The government regulations provide that on the death of a president in office its flag shall be displayed at half mast only one day.

In memory of the 350,000 Union soldiers who lost their lives during the civil war May 30, Memorial day, each year the United States displays its flag at half mast at all army posts, stations and national cemeteries from sunrise to midday. Immediately before noon a dirge is played by the band or field music, and the national salute of twenty-one guns is fired. At the conclusion of this memorial tribute at noon the flag is hoisted to the top of the staff and remains there until sunset. The idea is that the national ensign is too sacred an object to be long in mourning for any man or number of men, no matter how exalted their rank. The flag reversed, with the union down, indicates distress. The flag on anything but a fort actually besieged should never be displayed between sunset and sunrise.

When the flag is to be displayed at half mast it is lowered to that position from the top of the staff. It is hoisted to the top before it is finally lowered.—Washington Post.

She Sent It Back.

There has always been a lot of give and take in American women's social adventures in England. But American women have spirit, and if they have taken a good deal they have given back still more.

An Englishwoman called on an American countess in Belgravia. "Oh, I thought you were out. That's why I called," the Englishwoman said in her sweet, clear, insolent English voice.

"Well, do you know, I thought I was out, too," the American replied. "My stupid man must have mistaken you for some one else."

The Kickless Dog.
"I wonder why so many people insist on keeping dogs that are no good?"

"Well," replied the proprietor of the village hotel, "I always keep a few dogs because it's a comfort to see 'em take their meals regular without kicking, even if they don't pay any board."
—Washington Star.

A Great Secret.
Old Bachelor Uncle—Well, Charlie, what do you want now?

Charlie—Oh, I want to be rich.
"Rich? Why so?"
"Because I want to be petted. Ma says you are an old fool, but must be petted because you are rich. But it's a great secret, and I mustn't tell it."

BAD KIDNEYS OR LAME BACK

A Few Doses Make Kidneys Act Fine Ending Backache, and Urinary Misery

—No man or woman whose kidneys are disordered, or who suffer from backache or bladder misery, can afford to leave Pape's Diuretic untended. The time to cure kidney trouble is while it is only trouble—before it settles into Dropsy, Gravel, Diabetes or Bright's Disease.

The moment you suspect the slightest kidney or bladder disorder or feel a constant aching in the back, sides or loins, or the urine is thick, cloudy, offensive or full of sediment, irregular of passage or attended by a sensation of scalding, begin taking Pape's Diuretic as directed, with the knowledge that there is no other medicine at any price, made anywhere else in the world, which will affect so thorough and prompt a cure.

Pape's Diuretic acts directly upon the kidneys, bladder and entire urinary system; cleanses, vitalizes and regulates these organs, ducts and glands and completes the cure within a few days.

After the first few doses there will be no lame, aching back or rheumatic twinges, prostatic trouble, nervousness, headache, sleeplessness, inflamed or puffy eyelids, dizziness, bilious stomach, tired, worn-out feeling or other miserable symptoms caused by clogged, sluggish kidneys. Uncontrollable urination (especially at night), smarting, discolored water and all bladder misery vanishes.

Your physician, pharmacist, banker or any mercantile agency will vouch for the responsibility of Pape, Thompson & Pape of Cincinnati, Ohio, who prepare Pape's Diuretic—50 cent treatment—sold by every druggist in the world.

PORTUGAL TROOPS DEMANDING POWER

Arrogant Over Victory In Recent Revolution Soldiers Menace New Republic

LISBON, Oct. 25.—On the very eve of triumph, following closely upon the overthrow of the throne of King Manuel of Portugal, and his exile, together with the entire royal family, the Republican regime now stands face to face with a peril so grave that it is feared in some quarters that the new government will be

A Most Valuable Agent.

The glycerine employed in Dr. Pierce's medicines greatly increases the medicinal properties which it extracts from the medicinal roots and holds in solution much better than alcohol would. It also possesses medicinal properties of its own, being a valuable demulcent, nutritive, antiseptic and antiferment. It adds greatly to the efficacy of the Black Cherry bark, Bloodroot, Golden Seal root, Stone root and Queen's root, contained in "Golden Medical Discovery" in subduing chronic, or lingering coughs, bronchitis, throat and lung affections, for all of which these agents are recommended by standard medical authorities.

In all cases where there is a wasting away of flesh, loss of appetite, with weak stomach, as in the early stages of consumption, there can be no doubt that glycerine acts as a valuable nutritive and aids the Golden Seal root, Stone root, Queen's root and Black Cherry bark in promoting digestion and building up the flesh and strength, controlling the cough and bringing about a healthy condition of the whole system. Of course, it must not be expected to work miracles. It will not cure consumption except in its earlier stages. It will cure very severe, obstinate, chronic coughs, bronchitis and nervous troubles, and chronic sore throat, with hoarseness. In acute coughs it is not so effective. It is in the lingering hang-on coughs, or those of long standing, even when accompanied by bleeding from lungs, that it has performed its most marvelous cures.

Prof. E. H. Ellingwood, M. D., of Bennett Med. College, Chicago, says of glycerine:

"In dyspepsia it serves an excellent purpose. Holding a fixed quantity of the peroxide of hydrogen in solution it is one of the best manufactured products of the present time in its action upon indurated, disordered stomachs, especially if there is ulceration or a tartaric gastritis (catarrhal inflammation of stomach). It is a most efficient preparation. Glycerine will relieve many cases of prostatic (heartburn) and excessive gastric (stomach) acidity."

"Golden Medical Discovery" enriches and purifies the blood curing blotches, pimples, eruptions, scurvy swellings and old sores, or ulcers.

Send to Dr. R. V. Pierce, of Buffalo, N. Y., for free booklet telling all about the native medicinal roots composing this wonderful medicine. There is no alcohol in it.

The Season's Best In Dress Materials

In the lines of Dress Materials for fall wear, our showing is exceptionally strong this year. We have chosen your dresses for you with an eye for style, to furnish you with cloth that is "up to the minute;" with an eye for quality, to give you the best values the market affords; with an eye for beauty, and for utility. These are the marks that make our line so satisfactory to our patrons. You need not look further.

Storm Serge, 42 in., Special 85c

Here is a splendid all wool cloth, resembling somewhat the old English serge, but with a smoother finish, bought especially for dresses. Comes in gray, navy, dark red and black, 42 inches wide and a special good buy at 85c per yd.

Storm Serges, \$1.00 and \$1.25

These are two new numbers in a little better material and a little closer weave, and heavier weight. We are showing a full line of fall colorings in the \$1.00 number, which is 45 inches wide.

Epingle, 50 in., Special \$1.50

This is an entirely new material in a very fine weave and light weight. It is finished in a fine corded effect, and is designed especially for dresses. Full line of best colorings, some new, such as azure, artichoke, egg plant. Comes 50 inches wide at special, \$1.50.

Diagonal, 50 in., at \$1.50

In wool materials, the diagonal weaves have come back strong. We have put in a handsome, high grade number in the shades of malachite, a new green, and egg plant and navy. It comes 50 inches wide at \$1.50 per yard.

In the cheaper numbers, we are showing diagonals at 50 cents up.

New Silk Plaids

We are showing some handsome fall plaids in a fine silk taffeta. There are some new patterns in beautiful as well as standard plaids. The shades are absolutely correct. Exclusive designs in waist lengths at \$1.00, \$1.25 and \$1.50 a yard.

Rankin Dry Goods Co.
107 WEST FOURTH 410 NORTH MAIN

French Serge, 36 in., at 65c

The French serge is a much finer woven material than the Storm serge, with a finer twill. Here is special good number for light weight, one-piece dresses. It comes in mode, red, navy, amazonite, a new shade of green, and black; 36 inch at 65c a yard.

French Serges, 85c to \$1.50

We show a big line of French serges in the better qualities. At 85c it comes in brown, navy, and limousine, a beautiful new shade on the wisteria order. Other numbers, priced up to \$1.50 per yard.

Vigoureux Panama, Special \$1

This is a handsome, new material woven somewhat on the Panama order, but a pretty effect is produced by carding two shades together in the yarn. It comes in blues, mode, gray and limousine. It is 42 inches wide and we are offering it as a special good number at \$1.00 per yard.

Broad Cloths, \$1.75 and \$2

Here is a popular cloth that has returned with increased popularity. For this reason, we have put in two numbers at \$1.75 and \$2.00 in complete lines of colorings for fall. They come 48 to 50 inches wide. In black broadcloth we are showing qualities from \$1.50 to \$4.50.

Silk Cashmere, \$1

For evening apparel there are few things prettier than the new silk cashmires. They come in the soft evening shades of apricot, tans, pinks, Nile, champagne, rose and cream, in both changeable effects and plain colors. 27 inch and only \$1 yard.

overthrown and the reins of power wrested from its grasp.

The new menace to the powers that be is none other than the troops which made the usurpation of the monarchy possible.

The three regiments, both officers and men, are becoming so independent that those in councils high up have shown that they live in absolute fear of the outcome of the present turn of affairs. These same troops, not satisfied with extraordinary privileges, such as have never before been extended to soldiers, now demand that the military be in absolute power.

In an effort to controvert any drastic action on the part of the military, the government has recently offered these troops, which were foremost in the revolution against King Manuel, four months' leave of absence on full pay, hoping in this way to break them up and destroy any possible power which may lurk in their ranks.

The Youth's Companion in 1911

Just fifty-two good numbers, one after another, of only the best reading selected from the world's abundance of every sort.

Nearly three hundred of the most entertaining stories ever written—not the kind that are forgotten as soon as read, but stories that one loves to remember and talk about.

Then there are the famous men and women who write for Companion readers. It is the next best thing to meeting them face to face, for they choose topics which are sure to be of interest for their audience of three million Companion readers.

The announcement of the enlarged and improved Companion for next year will be sent to any address free, and with it sample copies of the Companion.

Those who subscribe at once, sending \$1.75, will receive free all the issues for the remaining weeks of 1910; also the Companion's Art Calendar for 1911, lithographed in thirteen colors and gold.

MR. BELL AND THE EXAMINER

In favoring the election of Theodore A. Bell, the San Francisco Examiner does its customary turn-about trick and praises the man it condemned in the most bitter terms four years ago. On the other hand, Mr. Bell who could not find words too strong to denounce Hearst four years ago has had nothing to say about him in the present campaign.

In an editorial of Wednesday, Oct. 19, 1910, with reference to Bell, the Examiner says:

"He not only opposes the Southern Pacific now; he has always opposed it."

In a Sacramento dispatch in its issue of September 12, 1906, the Examiner said:

"As Bell is evidently to be the Candidate of the Southern Pacific and Abe Ruef who control the convention, he should surely be the nominee."

And again over the signature of one of its correspondents at Sacramento, the Examiner said September 13, 1906: "He (Bell) boldly declares his opposition to Herrin and to Hearst and if he is no more opposed to the latter than to Herrin, no harm is done. For when he first ran for congress I secured his biography from Herrin's office and found that he depended for his chief support upon the railroad people."

Here is what Bell said of Hearst September 13, 1906, at Sacramento:

"This man Hearst is getting ready to leave the Democratic party that he has misused. He thinks he will leave the trail of a skunk behind him, if you will allow me to use the expression." In his speech at Vallejo on Sept. 23, 1906, Bell said:

"I would rather go down to everlasting defeat without Hearst or Herrin than go to victory with either or both of them. If I can't win without the sandbag and the sack, I will retire from political life and take my conscience with me."

In his campaign this year Bell, not only treats Herrin very tenderly, and has not once mentioned the name of Hearst, but calls the insurgent leaders bigots and attacks Johnson in the very language of the paid supporters of the San Francisco grafters.

THE NEW POLITICAL ORDER

The new deal and the new method of doing politics on the part of the Republican State Central Committee, in contrast to the old methods, recently has been brought to the attention of the public by several specific instances.

It has been a great surprise to many of those accustomed to the old way to have offers of votes in exchange for patronage and offers of money from State employees turned down, but the fact that this is a practice and not a theory is resulting in a general feeling that the new state committee is honest in its adherence to the pledge to place politics upon a higher plane.

When the statement was made to

Big Corruption Fund Is Raised to Beat Johnson

SAN FRANCISCO, Oct. 21. (Special to the Register)—It is known absolutely that within the past week an enormous subsidy and corruption fund has been collected in this city for the sole purpose of accomplishing the defeat of Hiram W. Johnson, the Republican candidate for Governor. The interests that for forty years have debauched the state are determined not to lose their control without a stupendous struggle and there is no length to which they will not go to prevent the election of the only man whom they fear.

The collection of this great fund has been going on for some time and its distribution probably will begin during the coming week. The plan for its use goes to such lengths that some of those invited to contribute refused in disgust, and made known to some of Johnson's supporters its existence and purpose. It is proposed by its aid to inaugurate throughout the state a campaign of denunciatory abuse and outrageous villification against the Republican candidate, going even to greater lengths, if that be possible, than that already started in this city by the Herrin-Calhoun organ, the San Francisco "Post."

The existence of the fund cannot be questioned and the people of the state may be prepared for as villainous an attempt to poison the public mind and divert the voters from the real issue of the campaign as ever disgraced a political canvass.

Chairman Lissner that employees on the water front had collected a fund from their associates to be turned over to the State Committee for campaign purposes, it required no consultation and no hesitation to refuse the offer and to insist that the money be given back to the contributors.

When the Bolo Club offered to endorse Hiram W. Johnson for Governor in exchange for assurances that certain state offices would be placed at the disposal of that organization, it required no consultation and no hesitation on the part of Chairman Lissner to turn down the offer and state plainly that the candidate of the Republican party is not seeking votes by such means.

It is a fact that more than one offer of financial support from special interests, made with strings tied to them, have been turned down and this without necessity for consultation or hesitation.

It is a fact that more than one offer of support in the way of votes, made with a proviso that the candidate of the Republican party should promise certain patronage in the case of his election, has been immediately turned down without necessity for consultation or hesitation.

Under the new deal and the new method of doing politics by the Republican State Central Committee, Hiram W. Johnson will be elected Governor without having made a single promise either in exchange for promises of votes or in exchange for financial aid, beyond the pledges he has made to the whole people in support of the Republican platform.

The letter to Chairman Lissner from the President of the Bolo Club, asking that Mr. Johnson agree to name his Adjutant-General, two aides on his staff and three trustees of the State Veterans' Home from the ranks of the Spanish War veterans, and that "definite assurances" regarding these demands had been received from the Democratic candidate, would indicate that the Democratic State Committee has not yet been able to get out of the rut of old time machine methods.

For My Lady Fair
"The slim silhouette" is an added despair to the stout woman who is ever growing more stout. No wonder that she has taken to the most extreme methods as described in some of the beauty articles, where rolling upon the floor is advocated as a means of disposing of adipose deposit.

Seamless shoulders seem to have taken a stronger hold than ever upon waists, and they are also seen in certain cloaks intended for evening wear.

Little children are again wearing the straight cut bang, reaching nearly to the eyebrows, the rest of the hair being combed smooth and cut around.

Vinegar is the best thing for removing hardened glue from furniture, as it will dissolve it instantly without injury to the surface of the furniture.

Flasks designed for the traveler may be had covered with raffia. They are similar to the wicker covered ones and are to be had in a variety of colors.

The fad for Scotch clan plaids does not find expression in silk and woolenings alone. Fascinating are the light weight shawls of Scotch camelhair in the brilliant colorings.

The smartest material for an evening gown for a middle-aged woman are the new brocades and the chintilly and Spanish laces. They are quite as expensive as they are beautiful.

Glass beads, china beads, seed beads, beads of all sizes, shapes and colors are used on the new gowns in a lavish way. On the bodice the bead-work generally takes the shape of a collarette.

A pretty and serviceable finish to the cuffs of the embroidered tailored waist is to buttonhole the edge of the cuffs as closely as possible. This edge not only has body, but will wear admirably.

A sensible winter coat for the small boy is one of blue serge, made double-breasted and with a collar and turn-back cuffs of Persian lamb. The coat is fitted with a patent leather belt having a slight dip in front.

With the vogue of the new-old silks—the taffetas and moires and pean de cygnes—there has come a partial revival of the old-time trimmings—narrow ruffles with fluted or corded edges, puffings and box-pleated silk bandings and the like.

Smart blouses continue to be made of transparent fabrics, mounted on contrasting materials. Chiffon cloth, marquisette, fancy nets, etc., are used for the outside, and mesaline satin all-overs and Persian silks for the foundations.

WELL KNOWN GERMAN RESIDENT IS DEAD

Came to Orange Twenty-four Years Ago From Native Land

Orange News: The death of Adolph Peck occurred Saturday afternoon at 3 o'clock at his home on East Washington avenue, resulting from a complication of diseases. The funeral was held this afternoon from the house at 1:30 and from the church at 2 p. m., with Rev. Jacob Kogler officiating. Interment was made in the Santa Ana cemetery.

With his passing was ended the career of one of Orange's most respected pioneers. Born in Germany, November 6, 1827, he came to Orange twenty-four years ago and has since resided in this community, honored and revered by all his friends and associates until taken away at the ripe old age of 84 years. Besides his widow there are left to survive him, four daughters and two sons, Mrs. Minnie Hockemeyer, Mrs. Louis Bowles, Miss Anna Peck and Miss Emma Peck, all residing in Orange, and John Peck and Henry Peck of Visalia, Washington.

Henry Peck is here, called by the death of his father. Mrs. S. T. Robb entertained a number of friends of her daughter, Clara, in honor of the latter's ninth birthday, Saturday at the Robb home on South Tustin street. Cake and ice cream were served as refreshments, and the afternoon proved a most pleasant one. Those present were: The Misses Helen Durbin, Mabel Terry, Electa and Hazel Schaffert, Geneva Greenleaf, Mary Adams, Jewel Ralph, Margarite Peers, Leah Stephenson, Blanche Shoemaker.

A party composed of Miss Prince Bibber, Mrs. Wallace and Messrs. Robert Weitbrecht, Ray Bibber and Noel Bibber, enjoyed an outing at the County Park and the Santiago canyon today. The party breakfasted at the park, then journeyed up into the canyon, returning to the park in time for lunch. Chicken was very much in evidence. The picnic was in celebration of Mr. Noel Bibber's birthday.

Hallowe'en Social

One of the jolliest events of last week was the Hallowe'en social given on Friday night at the Robert McFadden home on North Main street, the events of the evening being under the management of the Intermediate Society of the United Presbyterian church.

An efficient orchestra rendered music during the evening which was supplemented by a piano solo played by Miss Dorothy Dean, a duet by Misses Marjorie Magee and Grace Patterson, and a recitation by Audrey Ulm.

The famous art gallery which had been so much talked of was a collection of old time and baby pictures of members of the church, and proved to be exceedingly interesting. The captive balloon was well filled at all times during the evening.

Hallowe'en refreshments of pies, coffee and doughnuts were served in the dining room which was decorated with black cats and witches and lighted by jack o'lanterns. A center piece of beautiful chrysanthemums adorned the table. Candy was sold from a candy booth that was both attractive and popular.

HOW TO STOP DRINKING

—It was formerly customary for the habitual drinker to take the pledge regularly, sometimes once a year, and sometimes in every fit of remorse that followed his debauches, and then—break it.

But now it is gradually dawning on the world that pledges do not stop drunkenness. The nervous system of the habitual drinker is diseased and he must have treatment that will cure this condition. Orline is sold under a positive guarantee to cure the drink habit or the money will be refunded. Can be given secretly.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & CO., Toledo, Ohio.

The elopement of Miss Idlewild (the American girl) with the American broker, the chase on board the Lucania, Miss Idlewild disguised as a boy; the big storm, the Italian count proved to be a fraud and a bigamist, all combined forces the widow to give her consent to the marriage of Miss Idlewild to the young American, Dick Sparks.

OUR WASHINGTON LETTER

WASHINGTON, Oct. 25.—Although there is supposed to be no break in the continuity of the traditions of the Supreme Court of the United States, there was a feeling among the older practitioners that an old order had passed and a new one was beginning when the bailiff's gavel fell for the opening of this year's session. Justice Hughes, fresh from

the turmoil of political life, donned his judicial robe and hedged himself about, so to speak, with the old customs which are designed to shield the members of the highest tribunal from the annoyances of a career of ordinary activity. At the same time, Senior Associate Justice Harlan, rugged and imperturbable despite his years, assumed for a time at least,

the role of Chief Justice.

Curiosity waited upon the admission of Justice Hughes to the Supreme bench. He had fought many hard fights in the political arena before passing into the judicial domain where deliberation and quiet are in marked contrast to the turmoil of his late occupation. If it is admitted that temperament plays its part in the work of a justice of the Supreme bench, is it not possible, older attorneys are asking, that Justice Hughes will carry with him some vestiges of his former career which will manifest themselves in his attitude towards questions of public interest which cannot be answered at all times according to fixed precedents and principles of law.

Justice Hughes fits easily into his new place. From the moment he arose to take the oath of his office it was apparent that temperamentally at least, he was well equipped to play the high part to which he had been assigned by President Taft. The nervousness that usually marks the swearing in of a new justice was not apparent in his case. He read his oath calmly and in a subdued voice, giving the impression that there was less of mere formality and more of conviction about the ceremony than has come to be looked for in incidents of the kind.

On the bench, too, he presents a striking appearance. There is, probably, more of a sympathetic look about his eyes—one which will doubt-

less attract the younger attorneys who find it something of an ordeal to face the court. At the same time his face bears the unmistakable lines of the strenuous days he has put behind him, and one might very well surmise from a glance at him in his place on the bench that there will be no hesitancy in making a decision that might cause a country-wide upheaval if his sense of justice led him to that conclusion. There is no doubt that he is positive, unevasive, direct, and it is to be expected that these characteristics will manifest themselves within the limits of that rigorous judicial propriety which one instinctively associates with the Supreme court.

To those familiar with the practices of the court, in an intimate fashion, the assumption of the role of chief justice by Justice Harlan is no less an event. Justice Harlan differs temperamentally from the late chief justice, who swathed himself in the dignity with which the tribunal is surrounded. Justice Harlan is no less dignified, but in his case the dignity strikes one as being incidental and entirely subservient to the rugged, forceful character which directs the proceedings without leaning upon the court traditions for aid.

This was seen on the second day of the present term when the court transacted its first business. The presiding justice lifted the attorneys who crowded the court room out of the pitfalls into which they stumbled;

set them right in a matter-of-fact but most effective way, repressed those whose nervousness led them to impulsive mistakes, and set the whole machinery of the court working with an admirable smoothness.

Although Justice Harlan never rises above the point of judicial calm, the crack of a whip could not have been more stimulating than his orders. This was manifest when one of the older attorneys, in a moment of laxity, sat upon the arm of a chair. The presiding justice darted a rather eagle-like look in his direction and said:

"The gentleman will get off the arm of that chair and take a seat."

No attorney ever moved more nimbly to obey a direction. Before the reprimand had been administered almost, the lawyer was in a seat.

Much interest attaches to the personality of the two men who are to fill the vacancies on the bench. If they resemble either Justice Hughes or Presiding Justice Harlan there will be ample basis for the conviction that the important decisions will not suffer in directness.

DAILY CITRUS REPORT OF EASTERN MARKET

NEW YORK, Oct. 24.—It is reported there are two or three cars of California lemons due to sell here this week and the prospects for good if not unusual prices are favorable. The market is now bare of stock and the only available supply of stock is that furnished by California.

LOS ANGELES PRODUCE MARKET

The first car of local popcorn arrived on the market this morning. It came from Inglewood where practically all of the popcorn in Southern California is grown and was of excellent quality, with much larger and firmer ears than last year. The dealers receiving the shipment held it at \$3.25 to \$3.50 per hundred. Eastern popcorn has been arriving in the last few weeks and has been selling at the same figures. It is not quite as heavy in the yield of each ear's grain. It is still early in the season for a good demand on this commodity. There were no changes in the market on nuts although a reported feeling of weak prices is heard of in some directions.

There were no changes in the market on eggs. That commodity held firm, candied selling at 47 cents and case count at 43 cents. The demand for Northern fresh was excellent and the price was 38 cents. Receipts continued very light, only 68 cases being shipped in.

Butter arrivals were 11,884 pounds. Creamery extra was the best seller. The market was very firm on account of the smaller arrivals.

The small demand for cheese occasioned by the high prices prevailing finally caused a reaction in all eastern varieties and the recorded drops varied from one-half to 2 cents a pound. Northern fresh on the other hand, advanced one-half a cent. Imported cheese all held steady. Arrivals yesterday were only 200 pounds.

Highland potato prices were finally lowered in official quotations and the price on them is now fixed at \$1.25 with an upward range of 10 cents. Other spuds continue to show a weakness. Arrivals yesterday were heavy, 7750 sacks.

Onion arrivals were sufficient to swamp the market, 1240 sacks or more than four cars, one of the heaviest arrivals reported in several months. As a result onions were selling down to \$1.10 per hundred in a tobbing way.

The auto truck is robbing the railroads of a considerable revenue as far as bean hauling is concerned. Receipts at this season should be reported as very large, but very few days have shown a hundred sacks arriving by rail, nearly all of the beans grown in this vicinity being shipped by auto truck instead. As a result of these heavier receipts the market on nearly all varieties of beans was quoted lower. Pinks were quoted at \$6, small whites at \$4.25, Garvanza beans at \$4, lentils, \$6, and so on down the line.

Sweet potato receipts were 206 sacks, and the demand for them was good. Prices hovered around \$1.50 per hundred.

Apple arrivals were 6617 boxes. There was a good demand for very fancy stock and the first car of Idaho Jonathans ever received here sold fast in this class. Arkansas blacks are among the red varieties in good call at present.

In the fresh fruit line there were a number of declines. This was particularly true as far as grapes were concerned. The best grapes sold at \$1 a box. Vegetables also took some very noticeable tumbles. Cucumbers were obtainable as low as 15 cents a lug and tomatoes sold down to 25 cents.

Fish receipts were rather light, but Saturday's holdovers easily supplied the demand for that variety of food.

The first car of Idaho apples ever shipped to California arrived in Los Angeles yesterday morning. They are Jonathans out of the new orchards in the Lewiston district, which is expected to be one of the greatest apple

growing districts in the United States in years to come. Richardson & Holmes received the car and are selling the fruit at \$2.25 or at the same figure Colorado Jonathans are bringing. Owing to the fact that Colorado is entirely out of the running as far as apples for shipment are concerned, Idaho fancy stock is in good demand and several other cars have already been ordered on the quality of the first fruit received. This runs about 76 Jonathans to the box, or 20 per cent more fruit than is usually received in the same pack.

STRAUS PINES FOR HIS AMERICAN HOME

Has Smoothed Affairs in Turkey and Believes He Is No Longer Needed

WASHINGTON, Oct. 25.—Oscar S. Straus, American ambassador to Turkey, is anxious to leave the diplomatic service, and return to America. Mr. Straus saw the president yesterday and reported that all the matters in dispute between Turkey and the United States, which he had been delegated to adjust, have been satisfactorily disposed of, leaving the two nations, for the first time in many years, without a single diplomatic hitch.

Because of this, and for the reason that his acceptance of the Turkish ambassadorship was based on the representation that his services were needed to restore harmony, Mr. Straus feels his mission has been accomplished. He has not resigned his post, and if the president insists he will return to Constantinople at the end of his sixty days' leave of absence.

OLD MANAGEMENT SUES FOR CONTROL

Skinner Heads Second Suit to Recover Possession of All Night and Day Bank

LOS ANGELES, Oct. 25.—Headed by Newton J. Skinner, former president of the All Night and Day Bank, the old board of directors of the institution yesterday filed suit in the Superior Court against Alden Anderson, Superintendent of State Banks, his deputies and the present directorate. The complaint asks that the defendants be enjoined from further proceedings and be commanded to surrender the bank to the plaintiffs.

This is the second suit filed in the superior court. The first suit alleges that the present board is holding office without warrant and asks that they be ordered to surrender the bank to the ousted board.

This Runabout is typical of the wonderful value given in every Maxwell product for its strength and symmetry—its rugged durability and mechanical simplicity. Its light or dark blue body and cream colored wheels offer a choice of colors that is unusual for an automobile of this price.

WONDERFULLY ECONOMICAL TO MAINTAIN

Anyone can drive this car with half an hour's practice. Before making delivery to you we teach you how to operate and maintain it economically. We want to emphasize particularly that for long hard tours this runabout is just as adequate for two or four passengers as is our largest car—any hill that any car will climb—this car will climb. Let us give you a ride, make us prove its power, speed, ease of control and extreme simplicity.

YEARS OF RELIABLE SERVICE

But this Runabout not only offers cheaper traveling per mile than a horse or trolley—it is so perfected in every part—so substantially built that you are not subjected to the petty annoyances met with in many cars. This Maxwell gives years of staunch, durable service and the wear is evenly distributed throughout. There is not one unriveted feature in this car—not an experiment. Backed by the "Maxwell" name its reliability is absolutely assured. Don't buy until you see this car.

THIS IS THE RUNABOUT YOU CAN AFFORD.

Maxwell cars and runabouts have made motoring pleasures possible to thousands who never before could afford an automobile. Won't you let us explain why to you fully in person? THE KANSAS TIN SHOP

Is opposed to voting five million dollars to help San Francisco hold a fair, a few years hence, because—

When, about seven years ago, the jobbing houses of San Francisco united with that unfair and un-American combination known as the Master Plumbers Association and agreed to sell no plumbing goods to any person or firm that did not belong to and pay tribute to, that association and from that time to this present day of grace they refuse to sell us the goods we need in our plumbing business.

Those same jobbing houses have "branch houses" in Los Angeles and they pursue the same course of treatment toward us. Some four years ago those people were in trouble and we had the pleasure of contributing to their relief.

At the behest of that said association every jobber in the United States refused to sell us the goods we needed, but after thinking over the matter "good and strong" one of the independent Los Angeles houses (not being controlled by San Francisco) defied the combine and the boycott so that we have been able to run an open shop and transact our business without dictation from anybody or any association.

Because of the cowardly conduct of those wealthy business men is another reason why we don't vote to help them to hold a fair.
